Currently: 440 active employees

Training has started all over Georgia and South Carolina

Completing in house training and testing for all districts

- 704 hours of Supervisor training
- 352 hours of Lead Inspector training
- 16,000 hours of classroom training
- 24,000 hours of On-the-job training

In-Shell Moisture Machine

In-Shell Moisture Machine

3 machines will be tested in different buying points this season

- 1 machine at Ron Doziers buying point
- 1 machine at Fudge in Colquitt

If you are interested in testing at your buying point, please contact Randall Taylor.

Probe Pattern Study in 2022

The following states participated in the probe study:

- Georgia
- Alabama
- Florida
- South Carolina
- North Carolina
- Mississippi
- Arkansas

Inspected over 1000 additional samples for research.

ARS Dawson has completed the program and submitted to USDA-AMS for review.

Georgia will participate again this season if further research needs to be done.

Peanut Production by State

State	2022 Tonnage	Percentage of Tonnage
Alabama	342,528	12.2%
Arkansas	108,133	3.9%
Florida	222,576	7.9%
Georgia	1,440,306	51.4%
Mississippi	23,788	0.8%
Missouri	22,226	0.8%
New Mexico	5,571	0.2%
North Carolina	249,411	8.9%
Oklahoma	23,007	0.8%
South Carolina	133,019	4.7%
Texas	172,016	6.1%
Virginia	61,619	2.2%
Total	2,804,200	100%
